

The free market is one of our countries foundation cornerstone. Please do not limit the free market by stopping or limiting satelitte radio's ability to compete. I just bought satelitte radio and am thrilled to have an alternative in the Atlanta market, especially at night. Inside my home I cannot get any Atlanta AM station, but XM comes in loud and clear. Atlanta needs competition. As a small bussiness owner, I can definitely assert that advertising in Atlanta is too high. We need competition!
